BUSINESS ENTERPRISE AFTER THE WAR

Small and medium-sized businesses in all branches of industry and trade must have every opportunity of contributing, by their enterprise and initiative, towards the nation's economic well-being after the war. They must be given full support in developing British trade at home or in overseas markets.

overseas markets.

Changes due to war conditions call for a farsighted policy concerning the financial aid they
may need. This Bank, through its branch
managers, will therefore be prepared to consider
enquiries from promising undertakings, whether
old or new, conducted under good management.
It will base its consideration of each proposal as
much upon the prospective bornewer's integrity and
business capacity as upon his material resources.
